

Family Support – Policy

SpringDale is an inclusive organisation and strives to have activities that are appropriate for all age groups and abilities. Young children and adolescents have always been of prime importance to us at SpringDale.

Our Toy Library in Drysdale was one of our first programs or activities.

Our current offerings for families includes the two Toy Libraries – one in Drysdale and one in Portarlington. The Drysdale Toy Library is available online for click and collect.

We try to run other events during the year that might interest children and families – these may include Children’s Week, Science Week, Harmony Day and activities during School Holidays. We are happy to receive other suggestions for young people’s activities.
